**Snow Angels Volume 1** Jan 07 2021 \*2022 Eisner Award Winner - Best Digital Comic\* Two of the most acclaimed comics creators of their generation—writer Jeff Lemire and artist Jock—together for the first time in this 10-part science fiction saga set in a brutal world like no other! Milliken and Mae have never left The Trench—it's all they've ever known. They were born in The Trench, and they'll die there, just like all their people do. The two girls, eight and eleven, are a part of The Trenchfolk, a sprawling settlement of people living inside the massive ice walls of a vast, seemingly endless frozen trench carved into the surface of an otherwise icy wasteland. The Trenchfolk survive in this hostile world by following The Three Testaments of The Trench—golden rules repeated like a mantra from birth to death... 1. YOU MUST NEVER LEAVE THE TRENCH. 2. THE TRENCH PROVIDES. 3. THE TRENCH IS ENDLESS. Milli and Mae don't really know how their people came to live here. No one does, not even their wise and gentle Father. On Milliken's twelfth birthday, their father takes the two girls on an overnight skate down the trench—a coming-of-age ritual to teach them how to fish the frozen river, how to hunt the wild Trenchdogs that wander its frigid banks, and how to give proper thanks to their frozen Gods—The Colden Ones. It's the trip of a lifetime until the girls push beyond the borders of their humble land and awaken the Trench's deadly defender...The Snowman! What follows next is an action-packed story of survival, loss and redemption. Collects issues #1–#4 of Snow Angels from the ComiXology original digital series in print for the first time.

*Slip* Aug 02 2020 SLIP is a book of portraits examining what it means to be naked as a profession, told in the words of the subjects themselves. It features a wide array of performers, models, actors, artists, designers, doms and dancers photographed by Allan Amato, with art and typography by creative raconteur David Mack. Is there anything more celebrated, or more reviled, than the naked human form? Is there anything as timeless or as ubiquitous? From high art to commercial advertisement to pornography, the world around us is saturated with the evidence that the human mind is obsessed with the human body. In Allan Amato's own words... "Three years ago, I began an informal nude series, featuring models, artists and performers I'd worked with and befriended in LA. My goal was to create a non-presentational kind of image that can't simply be objectified and dismissed. I wanted to explore something slippery, feral, harder to define. And as a person wholly committed to cowering behind the camera, I desperately wanted to know more about their motivation, their story. "For those who brave the risk of being vulnerable on camera, the negative aspect of this experience is omnipresent: the shaming, judgement, stigma that is all too often deemed acceptable to level at those who express themselves via the medium of their bodies. "But there must be a positive element as well; otherwise why do it at all? And while confronting the darker side is necessary and important, I'd rather the beauty not get wholly overshadowed. The result is a book dedicated to unravelling the complicated relationship we have to nudity, self-expression and commerce."
