*The Ophthalmology Examinations Review* Jul 23 2022 This book is targeted at the final year ophthalmology resident taking the specialist ophthalmology exams, and deals primarily with key topics that are important from the examination viewpoint. Only material that is considered relevant to the exams is covered. The book will help the trainee or resident organize and synthesize knowledge acquired from various other sources or textbooks. While not meant to replace the standard textbooks, it contains enough information to serve as the main revision text nearer the exams. The style of the book is didactic, with questions and short answers. The short answers are designed to be repetitive so as to enhance memory. The answer includes a “model opening statement”, followed usually by a classification system to aid organization of facts and then by the bulk of the answer in concise notes. “Exam Tips” are inserted to provide insight into how to answer different types of questions and, when appropriate, a “Clinical Approach” section is also included. Scattered within the text are hundreds of mnemonics to help the candidate in the final stages of preparation for the exams.

**Moonwatch Only** Mar 27 2020 The third edition of this definitive and popular book, marking the 60th anniversary of the Speedmaster Now includes 17 new Speedmasters and an additional 120 new illustrations Updated models, serial range, and popularity index make this a must-buy for collectors "Moonwatch Only is certainly one of the best books ever written about a single watch model." - William Massena - Timezone.com "It is an indescribable reference work and a true must-have for every Speedmaster collector." - Forbes "This book sets a new standard. Not only for books on the Omega Speedmaster, but for watch books in general. I've never seen anything like it, and believe me when I tell you that I could fill an impressive sized wall with books on watches. Authors of other books or publishers should take a look at Moonwatch Only as well to see how it should be done." - Robert Jan Broer - FratelloWatches "The OMEGA Speedmaster Professional - the Moonwatch - has done things that no other timepiece has done and it's been worn in places that only a few human beings have been." - Captain Eugene Cernan, 'Last man on the moon' There are very few timepieces in the world that deserve a definitive and comprehensive book such as this one. The OMEGA Speedmaster Professional Moonwatch is one of them. Initially designed for automobile racing teams and engineers, the Omega Speedmaster embarked on a very different trajectory when NASA chose it to accompany astronauts heading for the Moon in 1965. Its involvement in the space adventure has propelled the Moonwatch to the top of the list of celebrated timepieces. After years of research and observation, the authors present a complete panorama of the Moonwatch in a systematic work that is both technical and attractive, making it the inescapable reference book for this legendary watch. This third edition marking the 60th anniversary of the Speedmaster has been enriched with numerous new features including a 16-page gallery of astronauts and their Speedmaster, QR codes to extend your exploration and a detailed story of a vintage Speedmaster.
