**Analysis and Applications** Mar 29 2020 Analysis and its applications have been major areas for research in mathematics and allied fields. The fast growing power of computation has made a significant and useful impact in these areas. This has led to computational analysis and the emergence of fields like Bezier-Bernstein methods for computer-aided geometric design, constructive approximation and wavelets, and even computational harmonic analysis. Analysis and Applications consists of research articles, including a few survey articles, by eminent mathematicians projecting trends in constructive and computational approximation, summability theory, optimal control and theory and applications of function spaces and wavelets.

**The Philosophy of Social Work** Jul 01 2020

**Sociological Theory** Jan 07 2021 Sociological Theory is an attempt to trace the development of sociological theory from the classical to the modern period. A comprehensive and balanced introduction, it studies all the important thinkers chronologically so that the students can locate the continuity as well as the discontinuity of thoughts and themes. A concise formative background of every thinker is outlined in the text to entice the reader to take a deeper plunge into the theories. The introductory chapter tries to sketch the broad outlines of the classical sociological theories whereas the concluding chapter examines the thematic shifts and the inter-linkage between all the theories from the classical to contemporary period. All chapters are pedagogically rich with glossary, keywords and discussion points. The language is lucid and comprehensible and the treatment of the text is such that it develops an appreciation for the subject.

**Innovative Technology in Teacher Education** Apr 10 2021

The rapid development and expansion of Web-based technologies has vast potential implications for the processes of teaching and learning world-wide. Technological advancements of Web-based applications strike at the base of the education spectrum. This book 'Innovative Technology in Teacher Education' provides cutting-edge research on such topics as network learning, e-learning, managing Web-based learning and teaching technologies. This innovative book provides essential, up-to-date effective learning systems and scenarios. This book also provides an overview of the latest advancements in adaptive training technology. Several approaches to designing adaptive technology are discussed for both traditional educational settings and professional training domains. Every chapter is worth reading

since it demonstrates that the gap between the affordances provided by computers and computer science and our ability to use these in instructional contexts. This book adheres to the M.Ed. syllabus of Periyar University, Salem, Tamil Nadu.

*Development and Decay of Public Administration in Bangladesh* Nov 17 2021 This book analyzes the development and decay of three generations of public administration in Bangladesh from a comparative perspective. It is a study of the chronological growth of public administration in Bangladesh and reveals how the British "steel frame" of bureaucracy provides the overall basis for the bureaucracy of Bangladesh. After the end British rule, both Pakistan and Bangladesh tried to make their own form of

bureaucracy, but both ended up keeping the British form of bureaucracy to some extent intentionally or unintentionally in their own form of bureaucracy. The irony of fate is that both countries failed to retain the position, prestige and glory of the bureaucracy of British India. This study examines the entire gamut of bureaucracy of Bangladesh and recommends some measures which can help develop the overall public administration of Bangladesh.

**İYİ YÖNETİŞİM VE İNSANİ KALKINMA: AFRİKA ÜLKELERİ**

**ÖRNEĞİ** Aug 02 2020 "...Bütün kara parçalarında, Afrika dahil." Cemal Süreyya Bu kitabın konusu, 1990 sonrası Afrika'da insani kalkınmadır. Çalışmada genel olarak Afrika'da az gelişmişlik ya da düşük insani kalkınma sorunu üzerinde durulmuştur. Afrika, dünya genelinde insani kalkınma açısından çok gerilerdedir. Kıta ülkelerinin neredeyse tamamının açlık sınırında yer almaktadır. 2019 BM insani kalkınma raporu ve verileri incelendiğinde Afrika ülkelerininin tüm kategorilerde listenin son sırasında yer aldığı görülmektedir. Örneğin genel HDI sıralamasında listenin en başında 0,954 puanla Norveç bulunurken, listenin sonunda 0,377 puanla bir Afrika ülkesi olan Nijer bulunmaktadır. HDI'yi

oluşturan kişi başına düşen milli gelir sıralamasında ilk sırada 110,489 skor ile Katar bulunurken, son sırada 0,660 skor ile Burundi yer almaktadır. Bu kitapta, 1990 sonrası Afrika'da düşük insani kalkınma sorununa çözüm arayışına, siyaset bilimi ve kamu yönetimi perspektifinden yaklaşmış ve iyi yönetim ile sınırlandırılmıştır. Zira insani kalkınmanın önündeki engellerin büyük ölçüde siyasi ve idari nitelikte olduğu düşünülmektedir. Örneğin DB tarafından 1989 yılında Afrika ile ilgili hazırlanan Sub Saharan Africa: From Crisis to Sustainable Development adlı rapora göre; "Afrika'da yaşanan düşük kalkınma krizinin ana nedeni yönetim krizidir". Başka bir deyişle Afrika'da iyi yönetim olmadığı için kalkınma krizi yaşanmaktadır. Soğuk savaşın bitmesi, liberalizmin yükselişe geçmesi, Sovyet Bloku'nun çökmesiyle başlayan dönemde Batılı kurumların sıkça dillendirdiği bu iddia, akademik açıdan tartışmaya değerdir. Bu nedenle kitapta; "1990 sonrası Afrika'da düşük insani kalkınma ile iyi yönetim arasında ne ilişki vardır? Sorusuna cevap aranmaya çalışılmıştır. Bu sorunun cevaplanması hem pratik hem de akademik açıdan büyük önem taşımaktadır. Pratik açıdan bu soruya cevap aramak, Afrika'da insanların çoğunun muzdarip olduğu yoksulluk, açlık, hastalık, cehalet gibi insani kalkınma sorunlarının çözümüne yönelik düşünceler geliştirmek suretiyle insanlığın refahına, mutluluğuna ve barışına katkı sağlayabilecek öneriler geliştirmeye olanak sağlayabilir. Akademik açıdan Türkiye'de siyaset bilimi ve kamu yönetimi araştırmalarında Afrika'da insani kalkınmanın iyi yönetim açısından tartışılması görece ihmal edilen yeni bir alandır. Kitapta iyi yönetim ve insani kalkınma ilişkisi Afrika ülkeleri örneğinde nitel ve nicel yöntemlerle araştırılmıştır.

## **EDUCATIONAL ADMINISTRATION AND MANAGEMENT**

Mar 09 2021 Educational administration is regarded as the process of integrating the appropriate human and material resources that are made available and made effective for achieving the purposes of a programme of an educational institution. The term 'Administration' doesn't refer to any single process or act. It is like a broad umbrella encompassing a number of processes such as: planning, organizing, directing, coordinating, controlling and evaluating the performance. The same situation occurs in the field of educational administration. The concept of educational administration is applicable in case of an educational organisation which has certain purposes or goals to fulfill.

The Indian Boss at Work May 11 2021 Journey into the kaleidoscope of Indian business and explore the 'context and forces' and worldview of Indian leaders. Unravel secrets to

building successful companies based on generational learnings, attitudes and capabilities. Read through the narratives of top Indian bosses where they reflect on their 'Indian-ness' that helped them transform into global leaders. From Harsh Mariwala to Som Mittal to women leaders such as Naina Lal Kidwai and Kiran Mazumdar-Shaw, there are many distinguished names in this book that add to the Indian leadership fold. The book responds to oft asked questions such as: What are the winning traits of Indian bosses? What cultural influences have shaped their mindsets? What makes them adaptable in any business situation? What can the West learn from India on leadership? Discover and leverage:

- The pluralistic notion of Indianness
- Forces of desh (place) and kaal (time)
- The praxis of collectivism and hierarchy
- Context sensitivity and co-holding paradoxes and dilemmas
- Multifacets of the Indian leader
- Insights from ancient inheritance and modern legacy
- Awareness of what impedes women leaders
- The opportunity for Indian youth

The wisdom of Indian-ness—'the World is One'—belongs to all humans. It invites the corporate Rishi within us, to act with ecological balance, inclusion and harmony.

*Relevance of Duties in the Contemporary World* Dec 18 2021 This book reflects on the significance of duties in creating an egalitarian society by collating and contextualizing the relevant literature. It particularly focuses on an appreciation of Gandhi's views on duty to showcase how they remain pertinent to create a cohesive, responsible and value-based society in the present right-dominated world. A viable solution to the current real world problems could be found in exploring the philosophy on duties and the book provides relevant literature in this regard. It undertakes jurisprudential analysis of duty in a rights-dominated world, identifying the gaps in realising the potential of duty to address the critical issues of the present times. It argues that enforcement of rights depends heavily on the observance of duties and proposes coherence in right-duty relationship.

Gandhian thought on duty recognises duty as a precursor to rights and emphasises that the observance of duties guarantees the enforcement of rights. The relevance of duties and Gandhian thoughts on the same is not restricted to India but transcends borders with profound appeal. Gandhian thoughts have become even more relevant in the current times to examine the situation of COVID-19 pandemic, racial discrimination (BLM), environmental crises, digital divide, health care and medical care crises, refugee and migrant labour problems and it can offer promising solutions based on the nuances of social solidarity, self realisation of duties/responsibilities, local governance, compassion and humanity.

#### **CONTEMPORARY GLOBAL ISSUES AND CHALLENGES** Jun 12 2021

The world scenario today is changing at a fast pace. The present era is the era of new thinking and new behavior. For the entire world, this is an age of transition. This phase of transition in human behavior, social-cultural setup, political thinking and environmental changes is having a profound impact on the contemporary global scenario. Human thinking, activity and behavior are affected by a number of economic, social, political, physical, technological and human forces. New issues related to the environment, society, culture, economy and political setup are

emerging. There is a necessity for all the scholars, thinkers and scientists to work on these newly emerging issues and problems. The book entitled "Contemporary Global Issues and Challenges" is a small literary effort towards these contemporary global issues. The book consists of 31 articles on various global issues. The book throws light on various socio-economic and environmental aspects like deforestation, global warming, pollution, degradation in coral ecosystem, soil pollution, waste management, cultural pollution, terrorism, dalits and globalization, social justice and law, use of remote sensing, impact of COVID-19, space research etc. Each article is a serious effort to understand the multi dimensions of each issue and problem. We, the editors are very thankful towards the authors and contributors of this book. Articles included in this book are the example of their creative thinking and writing. For readers, we tried our best to convey the ideas and thoughts of our contributors in their original format. We express our gratitude towards our staff members and colleagues for their valuable contribution and suggestions. We are also thankful towards Mr. Rajdeep Sharma of Sunrise Publishers, Jaipur for their nice composing and printing work. Dedicated to Maa Sarasvati and respected teachers.

Consciousness and Subjectivity Aug 22 2019 Issues of subjectivity and consciousness are dealt with in very different ways in the analytic tradition and in the idealistic-phenomenological tradition central to continental philosophy. This book brings together analytically inspired philosophers working on the continent with English-speaking philosophers to address specific issues regarding subjectivity and consciousness. The issues range from acquaintance and immediacy in perception and apperception, to the role of agency in bodily 'mine-ness', to self-determination (Selbstbestimmung) through (free) action. Thus involving philosophers of different traditions should yield a deeper vision of consciousness and subjectivity; one relating the mind not only to

nature, or to first-person authority in linguistic creatures—questions which, in the analytic tradition, are sometimes treated as exhausting the topic—but also to many other aspects of mind’s understanding of itself in ways which disrupt classic inner/outer boundaries.

Machine Learning and Information Processing Feb 08 2021 This book includes selected papers from the 2nd International Conference on Machine Learning and Information Processing (ICMLIP 2020), held at Vardhaman College of Engineering, Jawaharlal Nehru Technological University (JNTU), Hyderabad, India, from November 28 to 29, 2020. It presents the latest developments and technical solutions in the areas of advanced computing and data sciences, covering machine learning, artificial intelligence, human-computer interaction, IoT, deep learning, image processing and pattern recognition, and signal and speech processing.

Advances in Interdisciplinary Research in Engineering and Business Management Aug 26 2022 The volume contains latest research on software reliability assessment, testing, quality management, inventory management, mathematical modeling, analysis using soft computing techniques and management analytics. It links researcher and practitioner perspectives from different branches of engineering and management, and from around the world for a bird's eye view on the topics. The interdisciplinarity of engineering and management research is widely recognized and considered to be the most appropriate and significant in the fast changing dynamics of today’s times. With insights from the volume, companies looking to drive decision making are provided actionable insight on each level and for every role using key indicators, to generate mobile-enabled scorecards, time-series based analysis using charts, and dashboards. At the same time, the book provides scholars with a platform to derive maximum utility in the area by subscribing to the idea of managing business through performance and business

analytics.

Besides undergraduate students of commerce, students of management and EDP trainers will also find this text extremely useful. Above all, all those who are interested in and enthusiastic about setting up their own small units will find the book quite handy.

*ODE TO A NIGHTINGALE* Feb 26 2020 This eBook edition of "Ode to a Nightingale" has been formatted to the highest digital standards and adjusted for readability on all devices. "Ode to a Nightingale" is either the garden of the Spaniards Inn, Hampstead, London, or, according to Keats' friend Charles Armitage Brown, under a plum tree in the garden of Keats House, also in Hampstead. According to Brown, a nightingale had built its nest near his home in the spring of 1819. Inspired by the bird's song, Keats composed the poem in one day. It soon became one of his 1819 odes and was first published in *Annals of the Fine Arts* the following July. "Ode to a Nightingale" is a personal poem that describes Keats's journey into the state of Negative Capability. The tone of the poem rejects the optimistic pursuit of pleasure found within Keats's earlier poems and explores the themes of nature, transience and mortality, the latter being particularly personal to Keats. The nightingale described within the poem experiences a type of death but does not actually die. Instead, the songbird is capable of living through its song, which is a fate that humans cannot expect. John Keats (1795-1821) was an English Romantic poet. The poetry of Keats is characterized by sensual imagery, most notably in the series of odes. Today his poems and letters are some of the most popular and most analyzed in English literature.

**Anti-corruption Education and Peacebuilding** Jul 13 2021

This study explores corruption in Rwanda and highlights the

necessity of developing anti-corruption education as a way of combating corruption. It argues that an effective campaign against corruption should consider promoting anti-corruption education with the aim of enabling present and future generations to maintain and live out the Ubumuntu (meaning "trust/respect") ethical values. Considering the link between anti-corruption and peacebuilding efforts, as explained in this study, it is underlined that continuous efforts to raise such generations could undoubtedly move Rwandan society toward a sustainable peace. Peacebuilders, anti-corruption agents, and public policymakers are the primary beneficiaries of the study.

The Materialist Conception of History Sep 03 2020

*Special Tax Zones and EU Law* Oct 04 2020 Economic recovery from the global financial crisis of 2007–2008 has been sketchy, with some areas within the European Union (EU) still trapped in seemingly irremediable industrial stagnation and job loss. EU institutions are called upon to provide concrete amelioration for these situations, through the design and implementation of effective tax policies in accordance with the fundamental principles of EU law. In this original, innovative book, the author presents a new and expanded view of how special tax zones

(STZs) – areas of land where territorial advantages are granted on direct and/or indirect taxation – can deliver growth and mitigate economic and social emergency. Recognizing that, although a number of STZs within the EU have been established, there is still no systematic framework for them in the EU legal system, the author works out a comprehensive theory for STZs in the field of European tax law, dealing incisively with the interface of STZs with such essential legal and tax aspects as the following: customs union provisions; benefits on direct and indirect taxation; State-aid rules; free movement of persons; harmful tax competition; and role of EU social cohesion policies and their implementation. Furthermore, the author develops a new model of STZs for the most disadvantaged areas of the EU – the so-called Social Cohesion Zone – to respond decisively to issues of compatibility with such critical variables of EU law as those dealing with the outer limits set by State-aid rules and fundamental freedoms, clearly demonstrating the model’s practical viability. Detailed reviews of Member States’ practice in existing STZs and their tax regimes are thoroughly described so different variables can be compared. As a comprehensive description of the state of knowledge about STZs, including the relevant background and their current place in EU law, this book has no precedents and no peers. It allows practitioners, policymakers, and academics in tax law to fully understand the relationship between EU law, national legislation, and STZs, focusing on the possibility of reconciling the tax sovereignty of Member States with a supporting and coordinating role of the EU institutions. It will be warmly welcomed by the tax law community.

### **Micro Finance, Micro Enterprises and Women**

**Entrepreneurs** Sep 22 2019 Micro finance is the provision of a diverse range of financial services and products, including small loans (micro credit), saving accounts, insurance, pensions, and money transfers. In India, these are designed to assist people

living in poverty who are not able to access financial services in the mainstream banking sector because they have no collateral, formal identification, or steady income. Micro enterprises contribute significantly to economic growth, equity, and social stability. The sector is one of the most important vehicles through which India's low-income-earning people can escape poverty. With limited skills and education, poor women, particularly in rural areas, find tremendous economic opportunities in micro enterprises. This book explains and examines the role of micro finance and micro enterprises in empowering women from disadvantaged sections of the Indian economy.

Social Work Research Methods with Research Navigator Apr 29 2020 This comprehensive text contains introductory and intermediate coverage of qualitative and quantitative social work research and evaluation applications for undergraduate and graduate social work students. Features Integrates diversity and strengths/empowerment coverage throughout the text. Includes a complete chapter on ethics in social work research (Chapter 5), which shows students how to integrate research and ethics content. Provides comprehensive coverage on how to do a literary review, write a qualitative and quantitative paper/report, and cite Internet sources. Includes case studies and vignettes throughout the text, which bring a real-world focus to the subject. Includes "Statistical Package for the Social Sciences" in Appendix F, which illustrates data entry using SPSS with actual screen images to show students how to do tests of the null hypothesis, interpret significance tests, and understand measures of association. What the reviewers are saying . . . This book thoroughly presents all the most important topics for an introductory research text. I really like the balanced presentation of quantitative and qualitative research, the boxed material, and the reasonable price. I think this is a very good book. -Thomas Barton, University of North

Texas This text does a superb job in covering topics important to social work research students. I can't say enough positive things about how comprehensive I find this book-it is clearly a superior text. The coverage of ethics, literature review, and writing research reports places this book head and shoulders above the rest. -Janice Matthews Rasheed, Loyola University of Chicago[MyHelpingLabAd]
